

Whelen® Model: L31HAF

HIGH PROFILE BEACON

A Whelen L31 series Super-LED® beacon model # L31HAF shall be provided. The high profile beacon shall incorporate 32 amber Super-LEDs, an amber optic hard coated polycarbonate lens, and a metalized reflector with clear optic collimators. The hard coated lens shall provide extended life/luster protection against UV and chemical stresses. The four conformal coated PC boards shall provide additional protection against environmental elements. The L31HAF shall include 28 Scan-Lock patterns including four simulated rotating patterns and synchronized features. The L31HAF shall also contain cruise mode and low power mode. The L31HAF dome lens shall be sealed to a black die cast aluminum base with an "O" ring gasket assembly. The solid state beacon light shall be vibration resistant. An installation kit including mounting hardware shall be provided for surface mounting. The L31HAF will contain a 12" non-terminated pigtail. The high profile beacon is SAE Class 1 certified and is covered by a five year factory warranty. Additional mount kit options are sold separately.

Voltage: +12v

Size: Height=4.00", Diameter=7.20"

Amp Draw: 5.0 Amps Peak/ 2.0 Amps Average

Lens Color: Amber
